Your Needs, Our Design

Priisliste 2025

PRISERNE ER BRUTTOPRISER I DKK EX. MOMS, INKL. FRAGT

OBS:

Prislisten er i april 2025 blevet udvidet med flere borde:

ARKET: tillægssider efter s. 339 (1-6)

JUNIPER: tillægssider efter s. 360 (1-3)

SALGS- OG LEVERINGSBETINGELSER FOR MØBLER

Priser

Alle priser er bruttopriser i DKK ekskl. moms. Priserne er inkl. fragt i henhold til nedenstående leveringsbetingelser. På ordre >7.500,-DKK netto på beregnes fragtomkostninger.

Kolli er anført i prislisten og inden for kolli kan modeller og farver vælges frit. Går det bestilte antal ikke op i hele kolli og kolli skal brydes, udløser det et gebyr på 350,- DKK medmindre andet er aftalt.

Ordrebekræftelse

Der foreligger en bindende aftale når køber har modtaget en ordrebekræftelse. Køber er ansvarlig for at kontrollere den fremsendte ordrebekræftelse. Ændringer i ordrebekræftelsens indhold skal skriftligt meddeles mo design uden ugrundet ophold og senest 3 dage fra ordrebekræftelsesdato.

Levering

Leveringstiden er 3 – 7 uger afhængigt af ordrens størrelse og kompleksitet. Leverance indenfor 2 uger før/efter den aftalte leveringstid anses for rettidig. Levering i Jylland, på Fyn og Sjælland samt bro faste øer sker med møbeltransport eller fragtmænd. Ved forsendelse til ikke bro faste øer i Danmark, inkl. Færøerne og Grønland afholdes omkostningen af køber.

Betaling

Standard betalingsbetingelser er 14 dage netto. Rente ved for sen betaling udgør 1,75% pr. påbegyndt måned.

Tilbud

Tilbud er gyldigt i 8 dage fra tilbudsdato, medmindre andet er anført. Tilbud afgives med forbehold for fejl.

Forsinkelse

Hvis der mod forventning skulle opstå problemer i forhold til den aftalte leveringstid, kontaktes køber af mo design for nærmere aftale.

Reklamation

Reklamation skal skriftligt meddeles mo design straks og uden ugrundet ophold efter levering, dog senest 3 hverdage efter leveringstidspunktet. Reklamation over transportskader og andre fejl og mangler, som er synlige ved leveringen, skal fremsættes skriftligt over for fragtmænd ved varens modtagelse og noteres på fragtbrevet. Eventuel reklamationsbehandling sker på leveringsadressen i Danmark. Hvis varen efter levering er flyttet aftales efterfølgende tiltag individuelt.

Garanti

Mo design yder 2 års garanti på fabrikationsfejl, materialefejl samt stel-brud. Garantien omfatter ikke almindeligt slid og ælde, eller skader på betræk og overflader. Garantien forudsætter normal brug af inventaret i normalt indeklima. Der ydes ikke garanti på polsterprodukter betrukket med metervarer uden for mo designs standardsortiment.

Behandling af personhenførbare oplysninger

Mo design behandler personoplysninger under behørig iagttagelse af databeskyttelses forordningen og -loven. Oplysninger om navn, e-mail, telefonnummer, mv. benyttes alene i forbindelse med bestilling og generel kommunikation omkring kundebehandling.

About Gaber

ENG Gaber: a name that has been synonymous with innovation and excellence in furniture design since 1998. Our history is rooted in a deep know-how in the plastic moulding sector, a competence that has allowed us to stand out and grow together with our partners. Together, we have charted a successful course, enriched by international recognition and guided by a sustainable vision projected towards a future of continuous discovery.

At Gaber, each piece of furniture is the result of a creative journey that begins with an idea and materialises in forms that embrace functionality and beauty. We design, develop and produce solutions for the contract world, responding with agility and precision to the many facets of design. Our wide and diverse offer is designed to fit every space, every environment, every dream. With a range of fully customisable products, Gaber is the ideal partner to bring to life architectural projects that leave their mark, that speak the language of innovation and tell stories of spaces transformed into unforgettable experiences.

This is Gaber: a brand that embodies passion for design, commitment to quality, and dedication to an increasingly sustainable and surprising future. Welcome to the world of Gaber, where every detail is a step towards excellence.

IT Gaber: un nome che dal 1998 è sinonimo di innovazione e eccellenza nel design di arredi. La nostra storia è radicata in un profondo know-how nel settore degli stampi per il materiale plastico, una competenza che ci ha permesso di distinguerci e di crescere insieme ai nostri partner. Insieme, abbiamo tracciato un percorso di successo, arricchito da riconoscimenti internazionali e guidato da una visione sostenibile e proiettata verso un futuro di continue scoperte.

In Gaber, ogni pezzo di arredo è il risultato di un viaggio creativo che inizia con un'idea e si materializza in forme che abbracciano funzionalità e bellezza. Progettiamo, sviluppiamo e produciamo soluzioni per il mondo contract, rispondendo con agilità e precisione alle molteplici sfaccettature del design. La nostra offerta, ampia e diversificata, è pensata per adattarsi a ogni spazio, ogni ambiente, ogni sogno. Con una gamma di prodotti completamente personalizzabili, Gaber è il partner ideale per dare vita a progetti architettonici che lasciano il segno, che parlano la lingua dell'innovazione e che raccontano storie di spazi trasformati in esperienze indimenticabili.

Questa è Gaber: un marchio che incarna la passione per il design, l'impegno per la qualità e la dedizione per un futuro sempre più sostenibile e sorprendente. Benvenuti nel mondo di Gaber, dove ogni dettaglio è un passo verso l'eccellenza.

Our values

I nostri valori

ENG Gaber stands for the very essence of Made In Italy design, a brand that embodies the harmony between aesthetics and functionality, between traditional craftwork and technological innovation. A meeting of manufacturing expertise and global vision, which gives life to furnishings that are not just beautiful to look at, but extraordinarily functional and hard wearing.

A philosophy that is based on a deep understanding of the desires and requirements of our customers. We have always been reliable and proactive partners, committed to providing not merely products, but complete solutions that set off every environment with a touch of personality and refinement.

Our vast selection of models and finishes is the result of a constant commitment to research, excellence and customer satisfaction. Every detail is taken care of with the utmost attention, because we believe customisation to be the basis of the creation of a unique and identifying style, tailor-made as needs dictate.

IT Gaber rappresenta l'essenza del design Made in Italy, un marchio che incarna l'armonia tra estetica e funzionalità, tra tradizione artigianale e innovazione tecnologica. Un incontro tra sapienza manifatturiera e visione globale, che dà vita ad arredi non solo belli da vedere, ma straordinariamente funzionali e resistenti.

Una filosofia che si basa su una profonda comprensione dei desideri e delle necessità dei nostri clienti. Da sempre siamo dei partner affidabili e propositivi, impegnati a fornire non solo prodotti, ma soluzioni complete che arricchiscono ogni ambiente con un tocco di personalità e raffinatezza.

La nostra vasta selezione di finiture e modelli è il risultato di un impegno costante verso la ricerca, l'eccellenza e la soddisfazione del cliente. Ogni dettaglio è curato con la massima attenzione, perché crediamo che la personalizzazione sia alla base della creazione di uno stile unico e identitario, cucito su misura in base alle proprie esigenze.

Sustainability

Sostenibilità

ENG Imagine a world where innovation and sustainability meet and where each and every product is the result of a deep commitment to the environment and to quality: Gaber embodies this vision by transforming the idea of responsible design into tangible reality.

For us, sustainability is a mission. When manufacturing processes are efficient, waste is reduced, resources are saved and any environmental impact is limited. This is why we invest in advanced technologies: by reducing energy consumption and favouring the re-use of waste materials we are able to ensure the sustainability of our work.

Gaber technopolymer products are made with high quality raw materials: 100% recyclable and eco-friendly. In the zero waste collection, Gaber products are made of completely recycled material.

IT Immagina un mondo in cui innovazione e sostenibilità si incontrano, dove ogni prodotto è frutto di un impegno profondo verso l'ambiente e la qualità: Gaber incarna questa visione, trasformando l'idea di design responsabile in realtà tangibile.

Per noi la sostenibilità è una missione. Quando i processi produttivi sono efficienti, si riducono i rifiuti, si risparmiano risorse e si limita l'impatto ambientale. Ecco perché investiamo in tecnologie avanzate: riducendo il consumo di energia e promuovendo il riutilizzo delle materie di scarto, assicuriamo la sostenibilità delle nostre attività.

I prodotti Gaber sono realizzati con materie prime di alta qualità in tecnopolimero, riciclabili al 100% ed eco-compatibili. La collezione Zero Waste è stata creata interamente utilizzando materiale completamente riciclato.

Recycling Unit

ENG Gaber Recycling Unit is a division of Gaber s.r.l. that allows the recycling of plastic and metal materials from post-industrial consumption, automatically optimizing the separation of different raw materials, which are thus reused in subsequent production runs.

IT Gaber Recycling Unit è una divisione di Gaber s.r.l., dedicata al riciclo delle materie plastiche e metalliche provenienti dall'industria. Grazie a un sistema di differenziazione automatica, queste materie vengono riutilizzate per nuove produzioni, dando vita a un ciclo virtuoso che rispetta e protegge la natura.

Sustainable Products Alhambra Eco

Prodotti Sostenibili Alhambra Eco

ENG Compound Wood by Gaber is an advanced bio-composite where natural wood fibres are incorporated into a polyolefin matrix: material achieved by using wood shavings, in their turn completely recyclable, and without the need for any protective polluting treatments.

Gaber has received several awards for its sustainable collections, including Buygreen award and Greenguard certifications, a testament to Gaber's ongoing commitment to the innovation of its products and materials utilized.

IT Il Compound Wood di Gaber è un Bio-Composito avanzato che unisce fibre di legno naturali a una base poliolefinica: un materiale che utilizza derivati del legno riciclabile e che non richiede trattamenti inquinanti protettivi.

Gaber ha ottenuto innumerevoli riconoscimenti nel campo del design per le sue collezioni sostenibili, tra cui il premio Buygreen e le certificazioni Greenguard: una testimonianza del suo impegno nella progettazione e nell'innovazione dei prodotti e dei materiali utilizzati.

Zero Waste Collection Lilibet & To-Me

ENG Lilibet and To-Me collections are made of techno-polymer, perfectly combined with functionality and seating comfort. The collections are made exclusively with high quality materials, completely recyclable and environmentally friendly. Lilibet and To-Me are also offered in three different shades using the “100% Gaber Recycled” material, which Gaber is able to obtain with cutting-edge recycling technologies.

IT Le collezioni Lilibet e To-Me, realizzate in tecnopolimero, coniugano funzionalità e comfort di seduta. Sono realizzate con materiali di alta qualità, completamente riciclabili ed ecocompatibili. Vengono inoltre proposte in tre tonalità utilizzando il materiale 100% Gaber Recycled, che Gaber è in grado di ottenere con tecnologie di riciclo all'avanguardia.

Riconoscimenti ottenuti

ENG Gaber has won prestigious awards, a testament to Gaber's unstinting commitment to design and the focus on originality and innovation of its products.

IT Gaber ha vinto prestigiosi riconoscimenti, una testimonianza dell'impegno incondizionato nel design e l'attenzione all'originalità e all'innovazione dei prodotti.

Minimum environmental criteria - CAM

Criteri Ambientali Minimi - CAM

ENG The following products meet the requirements of the Minimum Environmental Criteria for the supply of new interior furnishings, for the assignment of the rental service and the service of extending the useful life of interior furnishings in the Public Administration. The introduction of environmental criteria enhances environmental quality and responds to the needs of the Public Administration to contain consumption, reduce public spending and enhance offers that reduce environmental impact.

IT I seguenti prodotti soddisfano i requisiti previsti dai Criteri Ambientali Minimi per la fornitura di nuovi arredi per interni, per l'affidamento del servizio di noleggio e del servizio di estensione della vita utile di arredi per interni nel settore della Pubblica Amministrazione. L'introduzione dei criteri ambientali valorizza la qualità ambientale e risponde alle esigenze della Pubblica Amministrazione di contenere consumi, ridurre la spesa e soprattutto valorizzare le offerte che riducono l'impatto ambientale.

Materials

Materiali

Metal

Metallo

ENG Gaber metal structures, in the full respect of our natural environment, are available with “trivalent” chroming and painted finishes. Prime-quality special epoxy powder coating used on Gaber frames enhance color stability from batch to batch and over time, increasing its corrosion resistance and achieving excellent resistance to atmospheric agents.

IT Le strutture metalliche Gaber, nel pieno rispetto del nostro ambiente naturale, sono disponibili con cromature “trivalenti” e finiture verniciate. La speciale verniciatura a polvere epossidica di prima qualità utilizzata sui telai Gaber migliora la stabilità del colore da lotto a lotto e nel tempo, aumentandone la resistenza alla corrosione e ottenendo un’ottima resistenza agli agenti atmosferici.

Technopolymer

Tecnopolimero

ENG Gaber production employs exclusively hightech thermoplastic materials, which are 100% recyclable. Each techno-polymer item is marked with a specific symbol, which shows the kind of polymer for a quick identification and consequent recycling. Gaber produces plastic injected materials without added chemicals. These materials are purchased within the European Union, so Gaber is exempt from registering with the ECHA agency (European Agency for Chemicals Substances), in the complete respect of “Reach Regulation”. As far as possible, recycled plastics are sourced as a base raw material, recovered post-consumption.

IT La produzione Gaber impiega esclusivamente materiali termoplastici altamente innovativi, riciclabili al 100%. Ogni articolo in tecnopolimero è contrassegnato da un simbolo specifico, che identifica il tipo di polimero per una rapida identificazione ed un conseguente corretto riciclaggio. Gaber produce materiali in tecnopolimero iniettato senza aggiunta di sostanze chimiche. Questi materiali sono acquistati all’interno dell’Unione Europea, pertanto Gaber è esente dalla registrazione presso l’agenzia ECHA (Agenzia europea per sostanze chimiche), nel pieno rispetto del “Reach Regulation”. Per quanto possibile, i materiali plastici riciclati vengono acquistati come materia prima di base, recuperati da postconsumo.

Wood

Legno

ENG Wooden products are manufactured in accordance with the European Regulations in force regarding formaldehyde emissions from woodbased products (E1 according EN717- EN120). Gaber uses wooden raw materials coming from PEFC chain of custody certified materials.

IT I prodotti in legno sono realizzati in conformità alle Normative Europee vigenti in materia di emissioni di formaldeide da prodotti a base di legno (E1 secondo EN717-EN120). Gaber utilizza materie prime in legno provenienti da materiali certificati catena di custodia PEFC.

Packaging

Imballaggi

ENG Corrugated paperboard carton boxes, printed with environmentally friendly inks, are made of at least 80% recycled and recyclable materials, coming from the chain custody FSC Recycled. Packaging is sized in order to optimize storage and transport requirements, both helping the environment and saving on transport costs.

IT Le scatole di cartone ondulato, stampate con inchiostri ecologici, sono realizzate almeno per l'80% con materiali riciclati e riciclabili provenienti dalla catena di custodia FSC Recycled. Gli imballi sono dimensionati in modo da ottimizzare le esigenze di stoccaggio e trasporto, sia a favore dell'ambiente che di risparmio sui costi di trasporto.

SALES CONDITIONS

- All prices are expressed in Euro € (VAT excluded). All prices do not include tariffs, taxes, fees, banks and shipping costs (Ex Works).
- Minimum order quantity follows the packaging or multiply, unless otherwise specified. The first box per model must be complete; subsequent incomplete boxes incur a € 6,00 net surcharge.
- Minimum order amount: € 500,00 net. Any order of an amount less than 500,00€ net shall not be considered accepted until written confirmation is provided by Gaber.
- Gaber packaging materials are suitable for ordinary transportation. If the Buyer requests special packaging, or if in Gaber's opinion it is required by the shipping method, any additional costs may be charged to the Buyer.
- Delivery time is approximate. Possible delays cannot justify any order cancellation or claim for damages.
- The goods sold through an extended payment are released under the conditions with property reserve until full settlement.
- Possible complaints must be notified not later than 8 days from receipt of the goods. Goods travel at customer's own risk. If the transportation is organized by Gaber, in the event that the Products or their packaging are damaged or in the presence of missing goods, the Buyer is required to sign the transport document with specific reservation. In the absence of reservations, Gaber will decline all responsibility.
- For any dispute the exclusive place of jurisdiction will be the Court of Treviso, Italy.

GABER® LITERATURE

All Gaber literature contains technical information and use-suggestions for those who intend to purchase or already have bought items from the Gaber range. For Customers' interest, the Company may modify its products without any prior notice. Drawings, quote, sizes, materials, colors represented in Gaber Literature are shown as a guide only and subject to tolerances. The colors displayed in Gaber literature or palettes, including physical ones, related to techno-polymer finishing, fabrics, leather, lacquered or painted materials, wooden items, laminated and compact materials, glass, marble and porcelains, may change from time to time: Gaber declines all responsibility in relation to slight differences in shades.

Gaber reserves the right to suspend the production of any of its products without any notice or reason. Gaber is a registered trademark: all inherent rights and all rights of reproduction in whole or in part of Gaber literature, related to text, images or illustration, or transmitted by any means, electronic or mechanical, including photocopying, recording or any information storage without written permission from Gaber, are worldwide reserved. The promotion and/or sale of the Products on the web and/or on e-commerce web sites is subject to prior authorization by Gaber and to a related prior agreement.

MAINTENANCE

Correct and frequent maintenance and cleaning increases the lifespan of the products: follow the specific guidelines to each product for cleaning, sanitizing and maintenance advice. Any maintenance interventions must be carried out by expert personnel.

MATERIALS

Plastic Materials

The Technopolymer compounds Gaber uses on its products are characterized by high structural resistance, heat and abrasion resistance. Gaber techno-polymers are non-toxic, stain resistant, antistatic, waterproof and UV-resistant: thanks to all these features these materials have excellent resistance to atmospheric agents. All these materials are recyclable in the full respect of our Natural Environment. Gaber produces plastic injected materials without added chemicals and, as far as possible, recycled techno-polymers are sourced as a base raw material, recovered post-consumption. Even products made especially for outdoor purposes could be affected by atmospheric agents: products may undergo exterior changes due to particular exposure to heat, sunlight, humidity and salinity. Gaber glides and floor-pads are made of blended rubber for heavy-duty use and are designed to minimise noise. Certain Gaber items come ready-fitted with felt floor-pads, specifically for hard or especially delicate floors. Some techno-polymer materials can show small defects such as shadows or streaks due to the structural characteristic of the material itself. Gaber manufactures some products of its collection with fire retardant techno-polymer: the additives that make the fireproof plastic can substantially change the aesthetics and durability of the product.

Steel

High-resistance steel is used to produce frames for chairs, stools and tables by using square or round tubes as well as solid rod. Products are available in chrome or painted finishes. The galvanic treatments and special epoxy powder coating used on many Gaber structures achieves excellent resistance to atmospheric agents.

Aluminum

Gaber use aluminum to produce frames for chairs, stools and tables. Aluminum surfaces can be anodized, and Gaber use this special treatment in order to increase resistance to corrosion.

Wood

Our wooden products are produced in accordance with the European Regulations in force regarding formaldehyde emissions from wood-based products. "Compound-wood" is a material used by Gaber for the production of some specific collections: this material uses wood fibers coming from the same production processes with which Gaber makes wooden components. Wooden products, being natural materials, can be damaged easily. Small impurities or imperfections are within quality standard range. Wooden surfaces cannot withstand direct heat sources.

Flexible Polyurethane Padding

The flexible polyurethane cold-pressed paddings Gaber uses on some of its upholstered products do not contain CFC/HCFC (ODP=0: do not contribute the reduction of the atmospheric ozone layer), they are fire-retardant class 1-IM UNI 9175 / CMHR following European Standards.

Coverings: Fabrics and Leathers

Gaber uses fabrics and leathers that belong to a wide range of colors and patterns, which are all tested in order to achieve the best performance, among which resistance to abrasion and artificial light. Fire-retardant fabrics and eco-leather upholstery are also available.

PACKAGING AND RECYCLING

Packages are designed to optimize storage and transport requirements, they are made of 90% recycled raw material and are completely recyclable in themselves. The optimization of packaging in terms of volume and weight delivers a lower consumption of energy in many forms, helping the environment and a consequent saving on transport costs. In order to avoid the loss of components, packaging must be disposed only after completing the assembly of the products. Once the product has been dismantled, the product itself or its components must be given to public garbage system, according to local rules, following the specific end of life disassembly sheets.

INNAPPROPRIATE USES OF THE PRODUCT

Avoid any improper use of the product; do not step on the product, do not stand on footrest or on armrests, do not seat on the back or on armrest, do not use the chair as a ladder. The product should not be subjected to swinging back and forwards that may damage the furniture or result in injury to the user. When lifting or moving the product, hold it by the main structure and not just under the seat. Gaber will accept no liability for any damages caused to property or persons subsequent to incorrect or improper handling of the product. Gaber also declines any responsibility in cases of damage caused to delicate floors.

CONDIZIONI GENERALI DI VENDITA

- I prezzi sono espressi in Euro € (IVA esclusa). Tutti i prezzi non comprendono dazi, tasse, imposte, spese bancarie e di trasporto (resa Franco Fabbrica/Ex Works).
- Ordine Minimo: pari all'imballo o multipli dello stesso, salvo diversamente specificato. Il primo imballo per ogni modello deve essere completo, ulteriori imballi incompleti subiranno un sovrapprezzo di € 6,00 netti.
- Importo minimo ordine: € 500,00 netti. Qualsiasi ordine di importo netto inferiore a 500€ non è da ritenersi accettato fino a conferma scritta da parte di Gaber.
- Gli imballi di Gaber sono adatti per trasporto ordinario. Qualora il compratore richieda uno speciale imballo, o qualora a giudizio di Gaber la modalità di spedizione lo richieda, gli eventuali maggiori costi potranno essere addebitati al compratore.
- I tempi di consegna sono indicativi. Eventuali ritardi non possono dar luogo a pretese di danni o annullamenti dell'ordine.
- La merce venduta con pagamento dilazionato è rilasciata con condizioni di riserva di proprietà fino a completo pagamento.
- Eventuali reclami devono essere comunicati entro 8 giorni dal ricevimento della merce. La merce viaggia a rischio e pericolo del committente. Qualora il trasporto sia organizzato da Gaber, è nell'interesse del compratore verificare quantità e condizioni alla consegna, evidenziando opportune riserve se necessario. In caso di assenza di riserva, Gaber declinerà ogni responsabilità.
- Per qualsiasi controversia è esclusivamente competente il foro di Treviso, Italia.

DOCUMENTAZIONE GABER®

La documentazione Gaber contiene informazioni tecniche e consigli d'uso per chi vuole acquistare o possiede articoli della gamma prodotti Gaber. Nell'interesse della clientela Gaber si riserva il diritto di modificare i propri modelli in ogni momento, senza obbligo di preavviso. I disegni, le quote e le dimensioni, i materiali ed i colori rappresentati nella documentazione Gaber si intendono a titolo puramente indicativo, e soggetti a tolleranze. I toni di colore rappresentati o presenti nelle palette Gaber, anche fisiche, relativi a polimeri, rivestimenti di ogni genere, verniciature, laccature, laminati e compactop, vetri, essenze legno, marmi e porcellane, sono indicativi, in quanto passibili di variazioni da partita a partita: Gaber declina ogni responsabilità in relazione a leggere differenze di tonalità. Gaber si riserva inoltre il diritto di ritirare, sospendere o cessare la produzione di ogni suo prodotto o versione in qualsiasi momento e a sua discrezione senza darne preventivo avviso. Gaber è un marchio registrato: tutti i diritti ad esso inerenti o di riproduzione, anche parziale, di cataloghi e listini Gaber relativi a testi, immagini, illustrazioni, disegni, sia con mezzi meccanici che elettronici, incluso fotocopie o la formazione di sorgenti di informazione, senza il preventivo permesso scritto di Gaber, sono globalmente riservati. La promozione e/o la vendita dei Prodotti in internet e/o su siti di e-commerce è soggetta a preventiva autorizzazione di Gaber e a relativo preventivo accordo.

MANUTENZIONE

Una corretta e frequente manutenzione e pulizia aumenta la durata di vita dei prodotti: consultare le guide specifiche ad ogni prodotto per i consigli di pulizia, sanificazione e manutenzione. Eventuali interventi di manutenzione devono essere eseguiti da personale esperto.

MATERIALI

Materie Plastiche

I compound di tecnopolimeri utilizzati da Gaber nella realizzazione dei propri prodotti sono caratterizzati da un'elevata resistenza strutturale, termica e all'abrasione. Il tecnopolimero componente dei prodotti Gaber è atossico, antimacchia, antistatico, impermeabile e anti-uv: qualità che lo rendono ottimamente resistente agli agenti atmosferici. I tecnopolimeri utilizzati da Gaber sono integralmente riciclabili, nel pieno rispetto del nostro ambiente naturale. Gaber produce articoli termoplastici senza additivi chimici e, ove possibile, vengono utilizzati tecnopolimeri riciclati derivanti da post-consumo industriale. I prodotti destinati all'uso esterno subiscono comunque nel tempo l'azione degli agenti atmosferici: eventuali alterazioni superficiali possono verificarsi a specifiche condizioni di temperatura, raggi solari, umidità e salinità. I tappi e le protezioni dei prodotti Gaber sono realizzati in una miscela di gomma ad alta resistenza all'usura, atta a diminuire il rumore da trascinamento. Alcuni prodotti Gaber sono dotati di tappi con feltri, adatti a pavimenti rigidi e più delicati. Alcuni materiali in tecnopolimero possono evidenziare piccoli difetti come ombre o striature dovute alla caratteristica strutturale del materiale stesso. Gaber realizza alcuni prodotti della propria collezione con tecnopolimeri ignifughi: gli additivi che rendono il manufatto plastico ignifugo possono variare sostanzialmente l'estetica e la resistenza del prodotto.

Acciaio

L'acciaio ad alta resistenza è utilizzato nelle strutture di tavoli, sedie e sgabelli, realizzati da Gaber per mezzo di tubolari a sezione quadrata e rotonda, o con tondino. I prodotti sono disponibili con finitura cromata o verniciata. I trattamenti galvanici e la speciale verniciatura a polveri epossidiche utilizzata da Gaber per alcune strutture dei propri prodotti raggiunge una resistenza ottimale agli agenti atmosferici.

Alluminio

Gaber utilizza l'alluminio per realizzare le strutture di tavoli, sedie e sgabelli. La finitura per mezzo del trattamento superficiale di anodizzazione, utilizzata in alcuni prodotti, ha lo scopo di aumentarne la resistenza alla corrosione.

Legno

I prodotti Gaber con elementi in legno sono prodotti di accordo con le vigenti normative Europee rispetto alle emissioni di formaldeide. "Compound-wood" è il particolare materiale utilizzato da Gaber per la realizzazione di alcune collezioni: questo materiale utilizza fibre di legno derivanti dagli stessi processi di produzione con cui Gaber realizza elementi in materiale legnoso. Le superfici in legno, essendo un materiale naturale, potrebbero, nel tempo, subire alterazioni di colore con l'utilizzo e con l'esposizione alla luce. Inoltre, per loro natura, tali superfici sono facilmente danneggiabili; alcune piccole impurità ed imperfezioni rientrano negli standard di qualità accettati. Le superfici in legno non possono sopportare fonti di calore dirette.

Imbottiture in Poliuretano Flessibile

Le imbottiture di alcuni prodotti Gaber sono realizzate in poliuretano flessibile, stampato a freddo, privo di CFC/HCFC (ODP=0 : non contribuisce alla riduzione dello strato di ozono atmosferico), autoestinguente classe 1-IM Uni 9175 / CMHR, seguendo le normative Europee in materia.

Rivestimenti: tessuti e pelli

Tessuti e Pelli utilizzati da Gaber appartengono ad un'ampia gamma di colori e trame, tutti scelti tra un range di prodotti testati con l'obiettivo di ottenere le migliori caratteristiche prestazionali, quali la resistenza all'abrasione, allo sfregamento e alla resistenza alla luce artificiale. Sono disponibili categorie di tessuti ignifughi e rivestimenti in finte pelli.

IMBALLI E RICICLO

Gli imballi sono realizzati con l'obiettivo di ottimizzare trasporti e stoccaggio; sono realizzati per il 90% di materiali riciclati e totalmente riciclabili. L'ottimizzazione dell'imballo in termini di volume e peso comporta un minore dispendio di energia, con un conseguente risparmio nei costi di trasporto e un importante aiuto alla salvaguardia del nostro ambiente. E' consigliabile lo smaltimento degli imballi solo a completamento dell'assemblaggio, onde evitare lo smarrimento di eventuale ferramenta e componenti. Una volta dismesso, il prodotto o i suoi componenti, vanno conferiti ai sistemi pubblici di smaltimento secondo quanto previsto dalla legislazione locale in vigore, seguendo le specifiche schede di smontaggio a fine vita.

USO IMPROPRIO DEI PRODOTTI

Sono da considerarsi usi impropri e/o scorretti del prodotto il salire in piedi su tavoli, sedie, sgabelli, poggiapiedi, sedersi su schienali, braccioli, utilizzare i prodotti come scaletta. Evitare oscillazioni che potrebbero pregiudicare il funzionamento e la sicurezza dell'utente. Per sollevare o spostare un prodotto non afferrare sotto il sedile, bensì afferrare saldamente la struttura portante. Il prodotto non deve essere sottoposto a carichi decentrati, è stato progettato per essere utilizzato in condizioni normali di appoggio (su quattro gambe o sulla base). Gaber declina ogni responsabilità per danni causati a cose o a persone derivanti da uso non corretto del prodotto; l'azienda inoltre si solleva da ogni responsabilità per danni provocati su pavimenti e superfici delicate.

PCon stands for “product configuration” and offers online and offline solutions to plan your space, configure products, create quotes and visual materials.

Gaber has invested in the creation of intelligent configurable data and the use of the pCon platform.

These solutions are free and reserved for the pCon Community.

Registration to the community is open to professionals (architects, interior designers, facility managers, agents, specialised retailers, salespeople, manufacturers, etc.).

PCon è l'acronimo di “product configuration” e rappresenta la suite leader di soluzioni online e offline per la pianificazione dello spazio, la configurazione grafica del prodotto, la quotazione e la creazione di materiali visivi per il mercato dell'arredamento.

Gaber ha investito nella creazione di dati configurabili intelligenti e nell'utilizzo della piattaforma pCon.

L'utilizzo delle diverse soluzioni è gratuito e riservato agli utenti della pCon Community.

La registrazione è riservata a professionisti (architetti, designer, facility manager, agenti, rivenditori specializzati, commerciali, fabbricanti ecc).

Enjoy is a modular sofa that can be composed as desired. The modules are equipped with techno-polymer hooks for a quick link between them. In addition to example Kits you can configure countless custom versions as desired. The armrests and backrests can be fixed to the three free sides of the seat.

Enjoy è un divano modulare configurabile a piacere. I moduli dispongono di agganci in tecnopolimero per un rapido fissaggio tra loro. Oltre ai Kit ad esempio, è possibile configurare a piacere innumerevoli versioni personalizzate. I braccioli e gli schienali sono agganciabili su tre lati liberi della seduta.

Enjoy structure is made of 50% of its weight from Pre-Consumer recycled material, certified "Plastica Seconda Vita", 100% recyclable.

La struttura di Enjoy è realizzata nel 50% del proprio peso da materiale riciclato Pre-Consumo, certificato "Plastica Seconda Vita", 100% riciclabile.

Panky is the modular and customisable seating system for furnishing waiting and reception areas, based on the 2027 trestle frame that allows it to be combined with operational office furnishings. The creation of a Panky configuration entails 3 simple steps, shown hereafter: choose the frame, available in 3 lengths; compose the sofa with cushions, cushions with back and/or armrest, tops; and finally join up the composition with 45° or 90° connections, whether composed of service tops or cushions.

Panky è il sistema di sedute modulare e personalizzabile per arredare gli spazi dedicati all’attesa e all’accoglienza, basato sulla struttura a cavalletto 2027 che consente l’abbinamento con gli arredi operativi dell’ufficio. La creazione di una configurazione si svolge in 3 semplici step, riportati di seguito: scegliere la struttura, disponibile in 3 lunghezze; comporre il divano con cuscini, cuscini con schienale e/o bracciolo, piani; ed infine collegare la composizione con connessioni a 45° o 90°, siano esse realizzate con piani di servizio o cuscini.

Aprio is an extendable rectangular garden table, with an epoxy powder coated aluminum frame and compact laminate top. Thanks to the construction materials and the telescopic extending frame, integrated with the legs, the table lends itself perfectly to both indoor and outdoor use. The patented extension system allows the structure to slide, keeping the legs always at the ends of the table. A quick coupling system allows easy extension by inserting one or two of the leaves that are hidden within the frame itself.

Aprio è un tavolo da giardino rettangolare allungabile, con struttura in alluminio verniciato a polveri epossidiche e piano in Compactop. Grazie ai materiali di costruzione e alla struttura telescopica di allungo, solidale con la gamba, il tavolo si presta perfettamente all'utilizzo sia indoor che outdoor. Il sistema brevettato di allungo consente lo scorrimento della struttura, mantenendo le gambe sempre alle estremità del tavolo. E' possibile scegliere di allungare il tavolo aggiungendo con facilità una o due prolunghe, completamente nascoste all'interno della struttura, grazie ad un sistema di aggancio rapido.

Arket

Studio Eurolinea Design

The Arket table collection is made using basic geometrics - radii and linear sections intersect to achieve distinctly intuitive shapes. The aluminum bases have three or four spokes with adjustable feet, and the stems come in sections with three or four surfaces. The table tops are made of steel, with fire resistant composite material core. The tables are thus painted in a solid color and easily customizable and adaptable to the most prestigious of installations. La collezione di tavoli Arket è realizzata utilizzando le geometrie più elementari, raggi e sezioni lineari si intersecano per ricavare forme essenziali ed intuitive. I basamenti, a tre o quattro razze, con piedini regolabili, e gli steli, a sezioni con tre o quattro superfici, sono realizzati in alluminio. I piani sono realizzati in acciaio, dal cuore in materiale composito e resistente al fuoco. I tavoli sono così verniciati in tinta unita e facilmente personalizzabili ed adattabili alle più prestigiose installazioni.

Arket Porcelain

Forsix Design

The Porcelain stoneware tops stand out for their excellent technical performance, ideal for the most delicate uses where maximum hygiene and resistance must be guaranteed. Porcelain tops are compatible with foodstuffs, resistant to fungi and molds, suitable for both indoor and outdoor use, resistant to frost, heat and high temperatures, they can be cleaned very easily while maintaining the characteristics of the surface.

I piani in Gres Porcellanato si distinguono per le eccellenti performance tecniche, ideali negli impieghi più delicati nei quali è necessario garantire la massima igiene e resistenza. I piani Porcelain sono compatibili con le sostanze alimentari, resistenti a funghi e muffe, idonei ad un utilizzo sia interno che esterno, resistenti al gelo, al calore a alle alte temperature, si possono pulire con estrema facilità mantenendo inalterate le caratteristiche della superficie.

Arket Plus

Forsix Design

Arket Plus Collection is made using basic geometrics, achieving distinctly intuitive shapes. The table tops are made of steel, with fire resistant composite material core, the three spokes bases are made of co-injected metal and techno-polymer. Stem and cross are made in aluminum, and provided with flip-top joint. The shape of the base and the flip-top mechanism allow the table to easily fold and stack, space-saving.

La Collezione di tavoli Arket Plus è realizzata utilizzando le geometrie più elementari, ottenendo così forme essenziali ed intuitive. I piani sono realizzati in acciaio, dal cuore in materiale composito resistente al fuoco, la base a tre razze è costituita da una struttura in metallo co-iniettata con tecnopolimero. Colonna e crociera sono realizzate in alluminio, dotate di giunto per la rotazione del piano. La forma della base e la meccanica che permette la rotazione del piano rendono il tavolo facilmente accatastabile in spazi ridotti.

Bristol Marble

Forsix Design

The Bristol table is characterized by bold lines, its four-spur base, equipped with adjustable feet, are in epoxy powder coated steel. The Marble tops, characterized by always different veins of natural stones, contribute to enhance elegance and refinement for the most demanding environments. The solid Marble surfaces, shiny and glossy, are treated to reduce their porosity, however constant care and cleaning of the product is recommended. Il tavolo Bristol è caratterizzato da linee decise, il basamento a quattro razze, dotato di piedini regolabili, è realizzati in acciaio verniciato a polveri epossidiche. I piani in Marmo, caratterizzati dalle sempre diverse venature della pietra naturale, offrono eleganza e raffinatezza, per completare con esclusività gli ambienti più ricercati. I solidi piani in Marmo, splendenti e lucidi, sono trattati per ridurre la porosità, tuttavia si consiglia pulizia costante e cura nell'utilizzo del prodotto.

Bristol Porcelain

Forsix Design

The Bristol table is characterized by bold lines, its four-spur base, equipped with adjustable feet, are in epoxy powder coated steel treated for outdoor use.

The Porcelain stoneware tops stand out for their excellent technical performance, ideal for the most delicate uses where maximum hygiene and resistance must be guaranteed. Porcelain tops are compatible with foodstuffs, resistant to fungi and molds, suitable for both indoor and outdoor use, resistant to frost, heat and high temperatures, they can be cleaned very easily while maintaining the characteristics of the surface.

Il tavolo Bristol è caratterizzato da linee decise, il basamento a quattro razze, dotato di piedini regolabili, è realizzato in acciaio verniciato a polveri epossidiche con trattamento per esterno. I piani in Gres Porcellanato si distinguono per le eccellenti performance tecniche, ideali negli impieghi più delicati nei quali è necessario garantire la massima igiene e resistenza. I piani Porcelain sono compatibili con le sostanze alimentari, resistenti a funghi e muffe, idonei ad un utilizzo sia interno che esterno, resistenti al gelo, al calore a alle alte temperature, si possono pulire con estrema facilità mantenendo inalterate le caratteristiche della superficie.

Charme

Studio Eurolinea Design

Elegance and essential shapes find a new expression in the Charme table, a proposal designed for workspace and hospitality environments, which is characterized by the particular design of the metal legs. The regular shapes harmonize each other, creating a product also suitable for conviviality, thanks to the top in Iron composite material which highlights great stability and resistance.

Eleganza ed essenzialità trovano una nuova espressione nel tavolo Charme, una proposta ideata per lo spazio di lavoro e dell'ospitalità, che si caratterizza per il particolare design delle gambe in metallo. Le forme regolari si armonizzano tra loro, dando vita a un progetto improntato anche alla convivialità, grazie al piano in materiale composito Iron dalla grande stabilità e resistenza.

Hug Marble

Studio Eurolinea Design

The Hug tables collection, made with a 4-star aluminum base, equipped with adjustable feet, is enriched with new Marble tops, thus adapting to the most prestigious installations. The Marble tops, characterized by always different veins of natural stones, contribute to enhance elegance and refinement for the most demanding environments. The solid Marble surfaces, shiny and glossy, are treated to reduce their porosity, however constant care and cleaning of the product is recommended.

La collezione di tavoli Hug, realizzata con basamento 4 raze in alluminio, dotata di piedini regolabili, si arricchisce di nuovi piani quadrati in Marmo, adattandosi così alle istallazioni più prestigiose. I piani in Marmo, caratterizzati dalle sempre diverse venature della pietra naturale, offrono eleganza e raffinatezza, per completare con esclusività gli ambienti più ricercati. I solidi piani in Marmo, splendenti e lucidi, sono trattati per ridurre la porosità, tuttavia si consiglia pulizia costante e cura nell'utilizzo del prodotto.

Hug Porcelain

Studio Eurolinea Design

The Hug tables collection, made with a 4-star aluminum base, equipped with adjustable feet, is enriched with new Porcelain tops, thus adapting to the most prestigious installations. The Porcelain stoneware tops stand out for their excellent technical performance, ideal for the most delicate uses where maximum hygiene and resistance must be guaranteed. Porcelain tops are compatible with foodstuffs, resistant to fungi and molds, suitable for both indoor and outdoor use, resistant to frost, heat and high temperatures, they can be cleaned very easily while maintaining the characteristics of the surface.

La collezione di tavoli Hug, realizzata con basamento 4 razze in alluminio, dotata di piedini regolabili, si arricchisce di nuovi piani quadrati in Gres Porcellanato, adattandosi così alle installazioni più prestigiose. I piani in Gres Porcellanato si distinguono per le eccellenti performance tecniche, ideali negli impieghi più delicati nei quali è necessario garantire la massima igiene e resistenza. I piani Porcelain sono compatibili con le sostanze alimentari, resistenti a funghi e muffe, idonei ad un utilizzo sia interno che esterno, resistenti al gelo, al calore a alle alte temperature, si possono pulire con estrema facilità mantenendo inalterate le caratteristiche della superfice.

Lol

Forsix Design

The Lol table collection is intended for outdoor use; youthfully simple and sunny, its design blends in discreetly with either the most sparkling or the most sober environments. The table tops with fire resistant composite material core, as well as the bases, are available with three or four spokes, are made up of a metal structure treated for outdoor use, and with a matt finish. The available colour palette is common to many Gaber seating collections, guaranteeing tone-on-tone colour co-ordination throughout designed settings rather than lively contrasts, defining various colour combinations between bases, tops and seating.

La collezione di tavoli Lol, disegnata da Forsix, è ideale per l'utilizzo all'aria aperta: giovane, semplice e solare, il suo design si fonde con discrezione dagli ambienti più sobri a quelli più frizzanti. I piani del tavolo, dal cuore in materiale composito resistente al fuoco, come anche i basamenti, disponibili a tre o quattro razze, sono costituiti da una struttura in metallo trattata per esterni, dalla finitura opaca.

La palette di colori disponibile è comune a molte collezioni di sedute Gaber, garantendo abbinamenti tono su tono degli ambienti progettati, piuttosto che vivaci contrasti, definendo diverse combinazioni di colori tra basi, piani e sedute.

Lol Marble

Forsix Design

The Lol tables collection is enriched with new Marble tops, with round or square shapes, thus adapting to the most prestigious installations. The Marble tops, characterized by always different veins of natural stones, contribute to enhance elegance and refinement for the most demanding environments. The solid Marble surfaces, shiny and glossy, are treated to reduce their porosity, however constant care and cleaning of the product is recommended. La collezione di tavoli Lol si arricchisce di nuovi piani in Marmo, dalle forme rotonde o quadrate, adattandosi così alle più prestigiose installazioni. I piani in Marmo, caratterizzati dalle sempre diverse venature della pietra naturale, offrono eleganza e raffinatezza, per completare con esclusività gli ambienti più ricercati. I solidi piani in Marmo, splendenti e lucidi, sono trattati per ridurre la porosità, tuttavia si consiglia pulizia costante e cura nell'utilizzo del prodotto.

Lol Porcelain

Forsix Design

The Lol tables collection is enriched with new Porcelain tops, with round or square shapes, thus adapting to the most prestigious installations. The Porcelain stoneware tops stand out for their excellent technical performance, ideal for the most delicate uses where maximum hygiene and resistance must be guaranteed. Porcelain tops are compatible with foodstuffs, resistant to fungi and molds, suitable for both indoor and outdoor use, resistant to frost, heat and high temperatures, they can be cleaned very easily while maintaining the characteristics of the surface.

La collezione di tavoli Lol si arricchisce di nuovi piani in Gres Porcellanato, dalle forme rotonde o quadrate, adattandosi così alle più prestigiose installazioni. I piani in Gres Porcellanato si distinguono per le eccellenti performance tecniche, ideali negli impieghi più delicati nei quali è necessario garantire la massima igiene e resistenza.

I piani Porcelain sono compatibili con le sostanze alimentari, resistenti a funghi e muffe, ideali ad un utilizzo sia interno che esterno, resistenti al gelo, al calore e alle alte temperature, si possono pulire con estrema facilità mantenendo inalterate le caratteristiche della superficie.

Lol Plus

Forsix Design

The Lol Plus tables collection is made of steel, as well as the table tops with fire resistant composite material core, the cross is made in aluminum, and provided with flip-top joint. The shape of the base and the flip-top mechanism allow the table to easily fold and stack, space-saving. The available colour palette is common to many Gaber seating collections, guaranteeing tone-on-tone colour co-ordination throughout designed settings rather than lively contrasts, defining various colour combinations between bases, tops and seating. La Collezione di tavoli Lol Plus è realizzata in acciaio, come anche il piano dal cuore in materiale composito resistente al fuoco, la crociera è realizzata in alluminio, ed è dotata di giunto per la rotazione del piano. La forma della base e la meccanica che permette la rotazione del piano in posizione verticale, rendono il tavolo facilmente accatastabile in spazi ridotti. La palette di colori disponibile è comune a molte collezioni di sedute Gaber, garantendo abbinamenti tono su tono degli ambienti progettati, piuttosto che vivaci contrasti, definendo diverse combinazioni di colori tra basi, piani e sedute.

Norman Marble

Forsix Design

The Norman table collection utilizes a 4 legged aluminum frame, available in many vibrant colours. The Marble tops, characterized by always different veins of natural stones, contribute to enhance elegance and refinement for the most demanding environments. The solid Marble surfaces, shiny and glossy, are treated to reduce their porosity, however constant care and cleaning of the product is recommended.

La collezione di Tavoli Norman utilizza una struttura 4 gambe in alluminio, disponibile in vari colori di tendenza. I piani in Marmo, caratterizzati dalle sempre diverse venature della pietra naturale, offrono eleganza e raffinatezza, per completare con esclusività gli ambienti più ricercati. I solidi piani in Marmo, splendenti e lucidi, sono trattati per ridurre la porosità, tuttavia si consiglia pulizia costante e cura nell'utilizzo del prodotto.

Ohimà

Forsix Design

Ohimà is a rectangular table with a classic and essential design. It features an aluminum and technopolymer frame with legs at each end, suitable for supporting even outside tops whilst assuring excellent stability. Suitable for use in covered outdoor settings, Ohimà has a top in marine plywood with a rounded edge, elegantly lending itself to completing and setting off to a tee even the most important of installations.

Ohimà, tavolo rettangolare dal design classico ed essenziale, è caratterizzato dalla struttura in alluminio e tecnopolimero a gambe contrapposte, adatta a supportare con eccellente stabilità piani di notevoli dimensioni. Adatto all'uso in ambienti protetti esterni, Ohimà dispone di un piano in Multistrato Marino con bordo arrotondato, prestandosi con eleganza a completare ed essere protagonista di atmosfere di prestigio.

Suitable for use in covered outdoor settings

Pareo

Forsix Design

Only for compactop
solo per compactop

The Pareo Collection offers a wide range of beautifully designed dining and coffee tables. Thanks to their clean yet detailed design, Pareo tables suit a variety of hospitality settings, available in square and rectangular versions. The aluminum-steel table frame, combined with Compactop or Laminated table tops, fits perfectly into even outdoor environments. Pareo Tables are made to be easily assembled and are available in a wide variety of bright frame colours and top finishes, perfectly matching your custom projects.

La collezione Pareo offre una vasta gamma di tavoli e tavolini dal design accattivante. Grazie alle loro linee essenziali e curate, i tavoli Pareo si adattano a diversi stili dedicati all'ospitalità e sono disponibili nella versione quadrata o rettangolare. La struttura del tavolo, realizzata in acciaio e alluminio, abbinata ai piani in Compactop o in Laminato, si adatta perfettamente anche agli ambienti esterni. I tavoli Pareo sono realizzati per essere facilmente e velocemente assemblati e sono disponibili in un'ampia varietà di colori e finiture, perfetti per i vostri progetti personalizzati.

Surfy 2027 Tables & Desks

Table collection, meeting tables and modular desks, part of the "2027" system, suitable for completing hospitality and office settings with integrated design. The tables are made with painted metal structures and Laminate or Compactop table-tops, available with metal fairlead solutions.

Excluding Outdoor versions, the products are made with panels having Euroclass reaction to fire B-s1, d0 - Bfl - s1 according to EN 13501-1; Class E1 according to EN 120 regarding the release of Formaldehyde.

Collezione tavoli, tavoli meeting e scrivanie modulari, parte del sistema "2027", adatti a completare con lo stesso design progetti integrati di ospitalità ed ufficio. I tavoli sono realizzati con strutture in metallo verniciato e piani in Laminato o Compactop, disponibili con soluzioni passacavi in metallo. Strutture di sostegno con forma a cavalletto per essere snelle e resistenti, oltre che colorate a tutto tondo.

Escludendo le versioni Outdoor, i prodotti sono realizzati con pannelli aventi Euroclasse di reazione al fuoco B-s1, d0 - Bfl - s1 secondo la EN 13501-1, inoltre Classe E1 secondo la EN 120 in merito al rilascio di Formaldeide.

Tag Marble

Ilaria Marelli Design

Tag is a coffee table suitable for waiting areas, made with a minimal design metal frame. The Marble tops, characterized by always different veins of natural stones, contribute to enhance elegance and refinement for the most demanding environments. The solid Marble surfaces, shiny and glossy, are treated to reduce their porosity, however constant care and cleaning of the product is recommended.

Tag è un tavolino adatto ad aree attese, realizzato con una struttura metallica dal design minimale. I piani in Marmo, caratterizzati dalle sempre diverse venature della pietra naturale, offrono eleganza e raffinatezza, per completare con esclusività gli ambienti più ricercati. I solidi piani in Marmo, splendidi e lucidi, sono trattati per ridurre la porosità, tuttavia si consiglia pulizia costante e cura nell'utilizzo del prodotto.

Tag Porcelain

Ilaria Marelli Design

Tag is a coffee table suitable for waiting areas, made with a minimal design metal frame. The Porcelain stoneware tops stand out for their excellent technical performance, ideal for the most delicate uses where maximum hygiene and resistance must be guaranteed. Porcelain tops are compatible with foodstuffs, resistant to fungi and molds, suitable for both indoor and outdoor use, resistant to frost, heat and high temperatures, they can be cleaned very easily while maintaining the characteristics of the surface. Tag è un tavolino adatto ad aree attesa, realizzato con una struttura metallica dal design minimale. I piani in Gres Porcellanato si distinguono per le eccellenti performance tecniche, ideali negli impieghi più delicati nei quali è necessario garantire la massima igiene e resistenza. I piani Porcelain sono compatibili con le sostanze alimentari, resistenti a funghi e muffe, idonei ad un utilizzo sia interno che esterno, resistenti al gelo, al calore a alle alte temperature, si possono pulire con estrema facilità mantenendo inalterate le caratteristiche della superficie.

Together

Mark Sadler Design

Together is a solid and versatile table, suitable to be utilized with elegance in all modern environments. The legs, made of natural solid oak, are combined with a natural oak veneered top, thus obtaining a pleasant visual play of solid interlocking between the leg and the top. With a simple and elegant design, Together adapts to any decorative context, expressing the warmth of wood and its small details. The legs are always at the extreme of tops sizes.

Togther è un tavolo solido e versatile, adatto ad essere inserito con eleganza in tutti gli ambienti moderni. Le gambe, realizzate in rovere massello naturale, sono abbinate ad un piano impiallacciato rovere naturale, ottenendo così un piacevole gioco visivo di solido incastro tra la gamba e il piano. Dal design semplice ed elegante, Togther si adatta a qualunque contesto decorativo esprimendo il calore del legno ed i suoi piccoli dettagli. Le gambe restano sempre all' estremo.

ABOUT COMPACTOP: MUCH MORE THAN A MERE SURFACE

Gaber Compactops are made of high-pressure laminate, consisting of numerous layers of paper saturated with thermosetting resins and bonded through the combined action of heat and high pressure. The paper used on Compactop (around 70% of the complete composition) comes from production processes that conform with the FSC chain of custody; phenolic and melamine resins are all strictly water-based.

The result is a stable, non-reactive, homogenous, non-porous, antistatic, high-density product with a totally distinct physical and chemical profile from that of its constituent parts. Thanks to the heat and high-pressure treatment it they undergo, Gaber Compactops are exceptionally tough and resistant to scratches, abrasions, chemicals and heat, making them ideal for a wide range of contract applications. Tops come pre-bored for Gaber kit bases.

Gaber Compactops conform to EN 438/1. According to this norm, the most important characteristics of Gaber Compactops are: their resistance to bumps, scratches, and wear and tear; color-fastness; easy cleanability; suitable for contact with food and general hygiene. UNI EN 438 is the reference standard for Compactop Gaber tops. This standard prescribes tolerances in the flatness of the product and on possible stains and other similar surface defects, for which the admissible size is based on a maximum contamination area equivalent to 1mm² / m² of laminate, concentrated in a single point or distributed in more points, proportional to the size of the sheet under inspection.

MAINTENANCE & CLEANING

No specific maintenance other than normal cleaning is required. The compact, non porous surface can easily be cleaned and disinfected with hot water, steam and any common non-abrasive household detergents and disinfectants, as long as these are not highly alkaline. Just a couple of precautions are necessary: avoid using strong acids and bases and avoid wiping with highly abrasive substances or equipment.

CHE COS'È IL COMPACTOP? MOLTO PIÙ DI UNA SEMPLICE SUPERFICIE

Il Compactop che Gaber utilizza per i propri tavoli è un laminato realizzato ad alta pressione, costituito da numerosi strati di carta impregnati con resine termoindurenti fenoliche e melaminiche, compattati attraverso l'azione combinata di calore ed alta pressione. Le carte utilizzate (circa il 70% della composizione dei piani) derivano da processi che seguono il protocollo della catena di custodia certificata FSC; le resine fenoliche e melaminiche sono tutte rigorosamente realizzate su base acquosa.

Il risultato è un prodotto stabile, non reattivo, omogeneo, non poroso, antistatico e di alta densità. Grazie al trattamento di alta temperatura e pressione cui è sottoposto, il Compactop è un materiale estremamente robusto: resistente a graffi, urti, abrasioni, sostanze chimiche e calore; caratteristiche che lo rendono il materiale ideale per una vasta gamma di applicazioni. I fissaggi dei piani Compactop sono già predisposti per i basamenti Gaber.

Il Compactop è conforme alla norma EN 438/1, secondo la quale, queste sono le principali caratteristiche di qualità di questo materiale: Resistente all'impatto, ai graffi e all'usura, stabile alla luce, facile da pulire, igienico, adatto al contatto con i cibi. La UNI EN 438 è la norma di riferimento dei piani in Compactop Gaber. Tale normativa prescrive tolleranze nella planarità del prodotto e su possibili macchie e altri difetti superficiali simili, per i quali la dimensione ammissibile è basata su un'area di contaminazione massima equivalente a 1mm²/m² di laminato, concentrata in un unico punto o dispersa in più punti, proporzionale alla dimensione del foglio sottoposto a ispezione.

MANUTENZIONE E PULIZIA

Il Compactop non richiede alcuna manutenzione particolare al di là della normale pulizia. La sua superficie compatta e non porosa può essere facilmente pulita e disinfettata con acqua calda, vapore e tutti i tipi dei più comuni detergenti e disinfettanti per uso domestico, purché non alcalini. Sono necessarie solo poche precauzioni, quali l'evitare l'uso di acidi o basi forti, evitare di strofinare con sostanze o strumenti fortemente abrasivi.

ABOUT FENIX COMPACTOP

Gaber's Fenix Compactop differ from standards as they are built with new generation materials on exposed coated surfaces, made using nanoparticles and acrylic resins. This coating avoid fingerprints on the material, make it soft-touch, heat-repairing, opaque and extremely resistant to bumps and scratches. In addition to this, the material is water repellent, hygienic, easy to clean and suitable for food-contact.

MAINTENANCE & CLEANING

No specific maintenance other than normal cleaning is required. The compact, non porous surface can easily be cleaned and disinfected with a soft cloth dampened with hot water, steam and any common non-abrasive household detergents and disinfectants, as long as these are not highly alkaline. Just a couple of precautions are necessary: avoid using strong acids and bases and avoid wiping with highly abrasive substances or equipment.

CHE COS'E' IL FENIX COMPACTOP

I piani Compactop Fenix di Gaber differiscono dagli standard in quanto prevedono l'utilizzo delle superfici esposte rivestite con materiali di nuova generazione, realizzati per mezzo dell'uso di nanoparticelle e resine acriliche. Tali rivestimenti rendono il materiale anti-impronta, morbido al tatto, termo-riparatore, opaco ed estremamente resistente ad urti e graffi. Oltre a ciò, il materiale è idrorepellente, igienico, resistente alle muffe, facile da pulire e adatto al contatto con alimenti.

MANUTENZIONE E PULIZIA

Il Compactop non richiede alcuna manutenzione particolare al di là della normale pulizia. La sua superficie compatta e non porosa può essere facilmente pulita e disinfettata con un panno umido, acqua calda, vapore e tutti i tipi dei più comuni detergenti e disinfettanti per uso domestico, purché non alcalini. Sono necessarie solo poche precauzioni, quali l'evitare l'uso di acidi o basi forti, evitare di strofinare con sostanze o strumenti fortemente abrasivi.

Standard Laminated Surfaces

Bottom surfaces of our laminated tops are in white, black or dark grey colors.
Il fondo del piano laminato può essere con colore bianco, nero o grigio antracite.

ABOUT LAMINATED TABLE TOPS

Gaber's laminate table tops are composed of a high-pressure decorative laminate layer, with a recycled-wood chipboard core and ABS edging. Gaber's support materials are E1 according to tests stipulated by the European standards EN717 and EN120 regarding formaldehyde emission. Laminate tops come ready for Gaber kit bases.
The result is homogeneous, static, lightweight and highly customizable in terms of shapes and finishes.
Our laminate tops are manufactures according the following European Standards related to fire reaction: EN 13501-1:2009 B -s2, d0.

MAINTENANCE & CLEANING

Gaber laminated table tops do not require any special maintenance beyond normal cleaning.
Laminated surfaces can be easily cleaned with a soft cloth dampened with water, even with cleaning agents, but not alkaline and generally aggressive. Avoid the use of strong acids or bases, avoid wiping with abrasive substances or equipment.

COSA SONO I PIANI DEI TAVOLI IN LAMINATO?

I ripiani laminati che Gaber utilizza per i propri tavoli sono composti da uno strato di laminato decorativo ad alta pressione, supportato da un pannello di truciolare; quest'ultimo realizzato con i materiali di scarto delle normali lavorazioni del legno. I piani sono bordati con bordo in Abs. La tipologia di supporto utilizzato da Gaber per i propri piani è di classe E1 secondo i test espressi dalle normative europee EN717 e EN120 in materia di emissione di formaldeide. I fissaggi dei ripiani in Laminato sono già predisposti per i basamenti Gaber.
Il risultato è un prodotto omogeneo, antistatico, leggero e facilmente personalizzabile in forme e finiture.
I nostri piani in laminato sono realizzati secondo la normativa europea di reazione al fuoco EN 13501-1:2009 B -s2, d0.

MANUTENZIONE E PULIZIA

I piani Laminati di Gaber non richiedono alcuna manutenzione particolare al di là della normale pulizia.
La sua superficie può essere facilmente pulita con un panno morbido imbevuto di acqua, anche con detergenti per uso domestico, purché non alcalini ed in genere aggressivi. Evitare l'uso di acidi o basi forti, evitare di strofinare con sostanze o strumenti abrasivi.

ABOUT LAMINATED TABLE TOPS

Gaber's laminate table tops are composed of a high-pressure decorative laminate layer, with a recycled-wood chipboard core and ABS edging. Gaber's support materials are E1 according to tests stipulated by the European standards EN717 and EN120 regarding formaldehyde emission. Laminate tops come ready for Gaber kit bases. The result is homogeneous, static, lightweight and highly customizable in terms of shapes and finishes. Our laminate tops are manufactures according the following European Standards related to fire reaction: EN 13501-1:2009 B –s2, d0.

MAINTENANCE & CLEANING

Gaber laminated table tops do not require any special maintenance beyond normal cleaning. Laminated surfaces can be easily cleaned with a soft cloth dampened with water, even with cleaning agents, but not alkaline and generally aggressive. Avoid the use of strong acids or bases, avoid wiping with abrasive substances or equipment.

COSA SONO I PIANI DEI TAVOLI IN LAMINATO?

I ripiani laminati che Gaber utilizza per i propri tavoli sono composti da uno strato di laminato decorativo ad alta pressione, supportato da un pannello di truciolare; quest'ultimo realizzato con i materiali di scarto delle normali lavorazioni del legno. I piani sono bordati con bordo in Abs. La tipologia di supporto utilizzato da Gaber per i propri piani è di classe E1 secondo i test espressi dalle normative europee EN717 e EN120 in materia di emissione di formaldeide. I fissaggi dei ripiani in Laminato sono già predisposti per i basamenti Gaber. Il risultato è un prodotto omogeneo, antistatico, leggero e facilmente personalizzabile in forme e finiture. I nostri piani in laminato sono realizzati secondo la normativa europea di reazione al fuoco EN 13501-1:2009 B –s2, d0.

ABOUT FENIX LAMINATED TABLE TOPS
Gaber's Fenix laminated table tops are composed of a decorative Fenix laminate layer, with a recycled-wood chipboard core. Tops utilize ABS edging, made using nanoparticles and acrylic resins. This coating avoid fingerprints on the material, make it soft-touch, heat-repairing, opaque and extremely resistant to bumps and scratches. In addition to this, the material is water repellent, hygienic, easy to clean and suitable for food-contact. Gaber's support materials are E1 according to tests stipulated by the European standards EN717 and EN120 regarding formaldehyde emission. Laminate tops come ready for Gaber kit bases. To optimize the production process, sizes may vary in tolerance ±5mm.

MAINTENANCE & CLEANING
Gaber laminated table tops do not require any special maintenance beyond normal cleaning. Laminated surfaces can be easily cleaned with a soft cloth dampened with water, even with cleaning agents, but not alkaline and generally aggressive. Avoid the use of strong acids or bases, avoid wiping with abrasive substances or equipment.

CHE COSA SONO I PIANI DEI TAVOLI IN LAMINATO FENIX?
I ripiani laminati che Gaber utilizza per i propri tavoli sono composti da uno strato di laminato Fenix decorativo, supportato da un pannello truciolare; quest'ultimo realizzato con i materiali di scarto delle normali lavorazioni del legno. I piani sono bordati in ABS, realizzato per mezzo dell'uso di nanoparticelle e resine acriliche. Tali rivestimenti rendono il materiale anti-impronta, morbido al tatto, termo-riparatore, opaco ed estremamente resistente ad urti e graffi. Oltre a ciò il materiale è idrorepellente, igienico, resistente alle muffe, facile da pulire e adatto al contatto con alimenti. La tipologia di supporto utilizzato da Gaber per i propri piani è di classe E1 secondo i test espressi dalle normative europee EN717 e EN120 in materia di emissione di formaldeide. I fissaggi dei ripiani in Laminato sono già predisposti per i basamenti Gaber. Ad ottimizzazione delle lavorazioni, le dimensioni possono variare nella tolleranza di ±5mm.

MANUTENZIONE E PULIZIA

ABOUT IRON TABLE TOPS

Gaber's Iron table tops are made of composite materials: a non-deformable water-repellent multilayer wood-based core, covered in steel. The slim line result is elegant, stylish and practical. Iron tops come with metal inserts for Gaber Kit bases. These tough materials make iron tops suitable for indoor as well as outdoor use.

MAINTENANCE & CLEANING

Gaber's Iron table tops do not require any special maintenance beyond normal cleaning. Its surface can be easily cleaned with a soft cloth dampened with water, even with household cleaning detergent, provided they are not alkaline and generally aggressive. Avoid the use of strong acids or bases, avoid rubbing with abrasive substances or devices.

COSA SONO I PIANI DEI TAVOLI IRON?

I sistemi Iron che Gaber utilizza per i propri piani dei tavoli sono realizzati da materiali compositi: il cuore del sistema è realizzato con un materiale multistrato, a base legnosa, resistente all'umidità, di grande stabilità. Il rivestimento in acciaio e lo spessore contenuto rendono il prodotto elegante, raffinato e pratico. I fissaggi dei piani Iron sono già predisposti per i basamenti Gaber. Le finiture disponibili lo rendono adatto anche all'uso per outdoor, grazie all'ottimale resistenza agli agenti atmosferici.

MANUTENZIONE E PULIZIA

I piani Iron di Gaber non richiedono alcuna manutenzione particolare al di là della normale pulizia. La sua superficie può essere facilmente pulita con un panno morbido imbevuto di acqua, anche con detergenti per uso domestico, purché non alcalini ed in genere aggressivi. Evitare l'uso di acidi o basi forti, evitare di strofinare con sostanze o strumenti abrasivi.

ABOUT STEEL SLIM TABLE TOPS

Gaber's Steel Slim table tops are made of composite materials: a non-deformable waterproof techno-polymer core, covered by an epoxy painted sheet of steel treated for outdoor purpose. The slim line result is elegant, stylish and practical. These tough materials make Steel Slim tops suitable for indoor as well as outdoor use. Steel Slim tops come with metal inserts for Gaber kit bases.

MAINTENANCE & CLEANING

Gaber's Steel Slim table tops do not require any special maintenance beyond normal cleaning. Its surface can be easily cleaned with a soft cloth dampened with water, even with household cleaning detergent, provided they are not alkaline and generally aggressive. Avoid the use of strong acids or bases, avoid rubbing with abrasive substances or devices.

COSA SONO I PIANI DEI TAVOLI STEEL SLIM?

La tecnologia Steel Slim che Gaber utilizza per i propri piani dei tavoli è realizzata per mezzo di materiali compositi: il cuore del sistema è realizzato con un materiale polimerico, di grande stabilità ed impermeabile, rivestito da una lamiera di acciaio verniciata a polveri epossidiche trattata per l'utilizzo per esterni. Il rivestimento in acciaio e lo spessore contenuto rendono il prodotto elegante, raffinato e pratico. Le finiture disponibili rendono tali piani tavoli adatti anche all'uso outdoor, grazie all'ottimale resistenza agli agenti atmosferici. I piani tavoli Steel Slim sono dotati di inserti metallici predisposti per i basamenti Gaber.

MANUTENZIONE E PULIZIA

I piani tavoli Steel Slim di Gaber non richiedono alcuna manutenzione particolare al di là della normale pulizia. La loro superficie può essere facilmente pulita con un panno morbido imbevuto di acqua, anche con detergenti per uso domestico, purché non alcalini ed in genere aggressivi. Evitare l'uso di acidi o basi forti, evitare di strofinare con sostanze o strumenti abrasivi.

Techno Polymer Table Tops

The technopolymer tops can only be utilized as spare parts for Tkitt tables, previously purchased from Gaber.
I piani in tecnopolimero sono utilizzabili esclusivamente quali ricambi dei tavoli Tkitt acquistati in precedenza da Gaber.

ABOUT TECHNO POLYMER TABLE-TOPS

The Techno Polymer Compounds Gaber uses on its table tops have high structural, heat and abrasion resistance. Gaber's technopolymer table tops are practical, shock-resistant, colorful and inexpensive.
Gaber technopolymers are non-toxic, stain-resistant, antistatic and UV-resistant and consequently have excellent resistance to atmospheric agents. All these materials are recyclable in the full respect of our Natural Environment. Gaber produces plastic injected materials without added chemicals and, as far as possible, recycled pre-used technopolymers are sourced as a base raw material. Technopolymer table top colors perfectly match the colors of Gaber's seating collection.

MAINTENANCE & CLEANING

The plastic surfaces of Gaber products can generally be cleaned with a cloth and warm water. For the most persistent stains, a small amount of liquid soap diluted in water may be used. Do not use acetone, trichloroethylene, ammonia, alcoholic substances and detergents that contain even just a small amount of these substances. We also recommend avoiding all types of abrasive and solvent substances or rough sponges.

COME SONO FATTI I RIPIANI IN TECNOPOLIMERO?

I piani in Tecnopolimero utilizzati da Gaber per i propri tavoli sono realizzati per mezzo del processo di iniezione plastica. I piani così realizzati sono pratici, resistenti agli urti, colorati ed economici. I compound di tecnopolimeri utilizzati da Gaber nella realizzazione dei propri prodotti sono caratterizzati da un'elevata resistenza strutturale, termica e all'abrasione. Il tecnopolimero è atossico, antimacchia, antistatico e anti-uv: qualità che lo rendono ottimamente resistente agli agenti atmosferici. I tecnopolimeri utilizzati da Gaber sono integralmente riciclabili, nel pieno rispetto del nostro Ambiente Naturale. Gaber produce articoli termoplastici senza additivi chimici e, ove possibile, vengono utilizzati tecnopolimeri riciclati derivanti da post-consumo. I colori dei ripiani dei tavoli corrispondono ai colori della vasta collezione di sedute Gaber.

MANUTENZIONE E PULIZIA

Le superfici in tecnopolimero dei piani dei tavoli Gaber possono essere pulite con un panno umido e soffice imbevuto in acqua. Per le macchie più ostinate è possibile diluire in acqua del sapone neutro liquido con moderazione. Non utilizzare acetone, trielina, ammoniaca, sostanze alcoliche o detersivi che contengano anche piccole quantità di tali detersivi. Non utilizzare a contatto con il prodotto sostanze abrasive o solventi, strumenti di pulizia ruvidi.

LOL PLUS

The Lol Plus table bases collection is made of steel, the cross is made in die cast aluminum, and provided with flip-top joint. The shape of the base and the flip-top mechanism allow the table to easily fold and stack, space-saving. The available colour palette is common to many Gaber seating collections, guaranteeing tone-on-tone colour co-ordination throughout designed settings rather than lively contrasts, defining various colour combinations between bases, tops and seating.

La collezione di basamenti Lol Plus è realizzata in acciaio, la crociera è realizzata in presso fusione di alluminio, ed è dotata di giunto per la rotazione del piano. La forma della base e la meccanica che permette la rotazione del piano in posizione verticale, rendono il tavolo facilmente accatastabile in spazi ridotti. La palette di colori disponibile è comune a molte collezioni di sedute Gaber, garantendo abbinamenti tono su tono degli ambienti progettati, piuttosto che vivaci contrasti, definendo diverse combinazioni di colori tra basi, piani e sedute.

Workspace Collection

Workstation 2027

This office furniture collection is intended for modern workplaces. It is distinguished by simple and rational worktop lines as well as slender and resistant support frames with a trestle shape. The service cabinets are suspended, a feature designed for easy and modern cleaning. The desks can be equipped with high-performance sound-absorbing screens, to improve privacy and the general acoustics of the workplace. The assembly systems have been especially designed to be fast and safe. The products are made with panels having Euroclass reaction to fire B-s1, d0 - Bfl - s1 according to EN 13501-1; Class E1 according to EN 120 regarding the release of Formaldehyde.

Programma d'arredo destinato ad uffici moderni con piani di lavoro dalle linee semplici e razionali, strutture di sostegno con forma a cavalletto per essere snelle e resistenti. I mobili di servizio sono sospesi, caratteristica pensata per una semplice e moderna pulizia automatica. Le scrivanie possono essere dotate di schermi divisorii per migliorare la privacy e l'acustica. I sistemi di assemblaggio sono veloci e sicuri. I prodotti sono realizzati con pannelli aventi Euroclasse di reazione al fuoco B-s1, d0 - Bfl - s1 secondo la EN 13501-1, inoltre Classe E1 secondo la EN 120 in merito al rilascio di Formaldeide.

Cabinets

To store files and folders in a world of colours. These filing cabinets are suspended, on frames, for easy obstruction-free cleaning. The cabinets themselves, tough and resistant, come with quick and effective assembly fixings. Drawers: On castors and fitted, these simple pieces help keep workspaces tidy and stationery in place.

Per contenere, archiviare e classificare, in un mondo a colori. I mobili contenitori sono sospesi, su strutture a cavalletto, per una semplice pulizia anche automatica. Le strutture, solide e resistenti, sono provviste di sistemi di assemblaggio veloci e sicuri.

Cassettiere: Su ruote e attrezzate, questi semplici complementi aiutano a contenere e ordinare le piccole necessità dell'ufficio.

Display wall or floor fixed storage shelving can enhance your most ambitious projects. Available with a black, gold or white matt painted steel frame, without any visible welds, Display is set off with solid Fenix laminate shelves. Display is a modular piece, which can support up to 4 shelves and lends itself to completing and finely decorating walls and corners of your commercial spaces. For correct use, the structure must be fixed to the wall or floor.

Semplice ed elegante, Display decorerà con discrezione i vostri progetti più ambiziosi. Disponibile con struttura in acciaio verniciato nero, oro o bianco opaco, senza nessuna saldatura a vista, è impreziosito da solidi ripiani in laminato Fenix. Display è un elemento modulare, che può sostenere sino a 4 mensole e si presta a completare e decorare con raffinatezza pareti ed angoli dei vostri spazi commerciali. Per un corretto utilizzo, questo mobile deve essere fissato alla parete o pavimento.

The sound-absorbing free-standing panels of the Tune collection are designed both to furnish with elegance as well as to assure the precise function of reducing sound reverberation. Equipped with a matt painted metal base, they are made of polyester fiber and available in two different sizes.

I pannelli fonoassorbenti free-standing della famiglia Tune sono pensati per arredare con eleganza, nella precisa funzione di ridurre il riverbero sonoro. Dotati di basamento in metallo verniciato opaco, sono realizzati in fibra di poliestere e disponibili in due diverse dimensioni.

POWER UNIT / UNITÀ DI ELETTRIFICAZIONE

The Power Unit includes a power socket (Schuko), a USB type A+C port and 2meter connection cable. Thanks to its stand-alone base, the power unit can fixed by screws or can be placed anywhere on the worktop without any limits, allowing the user to get the power wherever is needed. Thanks to a suspension braket the power unit can be easily mounted upside-down the worksurface, in order to keep free your desk.

Il sistema di elettrificazione da scrivania include una presa energia (Schuko), le porte USB A+C. e due metri di cavo di connessione. La sua base d'appoggio consente di essere fissata con viti o posizionata senza alcun vincolo al piano, offrendo la libertà di utilizzo ovunque ci sia una esigenza di collegamento. Il fissaggio sotto piano per mezzo di un'apposita staffa permette di liberare le superfici d'appoggio, in questo modo si può sfruttare al massimo lo spazio della superficie di lavoro.
